QUOTA INTERNATIONAL DEAF WOMAN OF THE YEAR NAMED

At the recent convention of Quota, International, Irene Tunanidas, '70, was named Quota International Deaf Woman of the Year. Nominations for this award were submitted by Quota Clubs from all over the world. This is indeed an honor for Irene, who is presently teaching American Government, English and Literature to hearing impaired 10th and 12th grade students at a public high school in Youngstown, Ohio.

FAMILY LEARNING VACATIONS

Between July 9 and August 2, the College of Continuing Education and the Kendall Demonstration Elementary School co-sponsored four sessions of the Learning Vacation program for families with hearing impaired children. Some sixty families from all over the country attended. In this program both deaf and hearing children participate in the KDES summer school while their parents have instruction in manual communication as well as in how to parent with a deaf child in the family. The information they are presented with includes lectures on language, total communication, the psychology of deafness, the problems commonly experienced by hearing siblings of deaf children, PL-94-142, the deaf adult (a panel), sex education and organizations for parents of deaf children. Parents and hearing siblings also receive professional counseling services. In addition, a variety of "fun" activities are planned to make their stay in Washington more pleasant.

This year from June 18 - 28 a new Learning Vacation was offered for families with deaf children who have serious visual problems as well, with an emphasis on those with the Usher Syndrome. This program was organized by two men who themselves have the syndrome. Art Roehrig, Director of Programs and Services for Deaf Blind People,

and Harry Anderson of the Florida School for the Deaf. While the emphasis of this program was somewhat different from that of the "regular" Learning Vacation programs, its goals were the same.

CUED SPEECH SUMMER PROGRAM

The Office of Cued Speech Programs in cooperation with the College of Continuing Education will be offering a summer program from August 6 - 11 for families with hearing impaired children who want to learn and use Cued Speech.

Sixty families will be participating in this program which will offer instruction in Cued Speech and its application to family life.

Similar programs were held in Kansas City (July 2 - 6) and at the Berkeley School for the Deaf (July 10 - 14).

LATE NIGHT RADIO FEATURES MARILYN GALLOWAY

Marilyn Galloway was the guest speaker on the "Larry King Show" on June 17. This program is the most widely listened to all-night interview radio show in the United States. The program consists of an hour long interview and then a longer period when questions are phoned in from around the country. Vic Galloway accompanied Marilyn and helped to answer some of the questions about Gallaudet and about deafness that came pouring into the Mutual Broadcasting System's station. Despite the fact that it meant being on the air from midnight until 3:00 a.m., the Galloway's were able to provide a great deal of information and even to enjoy themselves while doing so.
